

HERBARIUM

STANDARD RANGE INGREDIENTS

HERBAROM natural by nature ...

SINCE OUR CREATION IN 1994, A NATURAL APPROACH HAS BEEN A MATTER OF COURSE FOR US. IT IS AN INTEGRAL PART OF OUR HISTORY, OUR ROOTS AND OUR DNA.

Representing a veritable symbiosis between Nature and Man, for us, this is based on 3 core pillars:

BEING > EMBODYING > SHARING

It was this passion and love for plants that inspired Dominique Ardouvin to create Herbarom, convinced of the benefits of nature for our well-being and health.

Today, this conviction and passion are shared in order to continue offering you plant-based ingredients, obtained via gentle and truly sustainable extraction methods which respect the raw material.

- You want to integrate natural ingredients in your formulations?
- Your objective is to reduce and simplify the list of ingredients used in your formulations?
- You are sensitive to the origin of the products and to their environmental impact?

Our goal is to help you build the solution that makes sense for your customers and your business!

...AND WHICH IS EXPRESSED THROUGH 4 strategic markets:

DISCOVER OUR specialty plants!

THANKS TO OUR EXPERTISE IN PLANT EXTRACTION, WE HAVE DEVELOPED SPECIFIC KNOW-HOW BASED ON FOUR PLANTS WITH WHICH WE HAVE BEEN WORKING FOR MANY YEARS: CARROT, LOVAGE, PARSLEY AND ANGELICA.

SINGULARITY

We select these plants with the utmost care and according to their specificities, choosing the very best varieties.

TRANSVERSALITY

The extract obtained has various applications and may be used for cosmetics, perfumery, animal feed (with the exception of parsley) or as a food supplement.

PURSUIT OF EXCELLENCE

We take special care to combine tradition and innovation in order to continuously improve our processes and obtain the best product quality.

TRACEABILITY AND PARTNERSHIPS

In terms of sourcing, we set up cultivation contracts directly with farmers.

A SERVICE TAILORED TO EACH OF YOUR NEEDS

According to the needs of your project, we provide three levels of service:

- **Standard and secure service:** thanks to our commitment to local farmers, we can secure the availability of raw materials.
- **Specific quality:** together, we can define a specific quality for your project
- **Cultivation:** to go even further, we can develop an exclusive network for you.

Oily macerates

Our oily macerates are the result of the gentle maceration of plants in vegetable oil. Carried out at room temperature, this makes it possible to preserve all of the plants' active ingredients and prevent the oil's degradation.
