

The Herbarom Group, 2 strategic businesses

GROUPE
HERBAROM

Specialist in natural ingredients
and development of standard and
customized plant extracts

BEAUTY &
PERSONAL CARE

FLAVOUR &
FRAGRANCE

FOOD &
BEVERAGES

NUTRITION &
ANIMAL HEALTH

CDMO expert in the development and
custom manufacturing of liquid and dry
food supplements

FOOD
SUPPLEMENTS

Key figures

- ✓ 60M€ turnover
- ✓ 280 employees
- ✓ 4 production sites

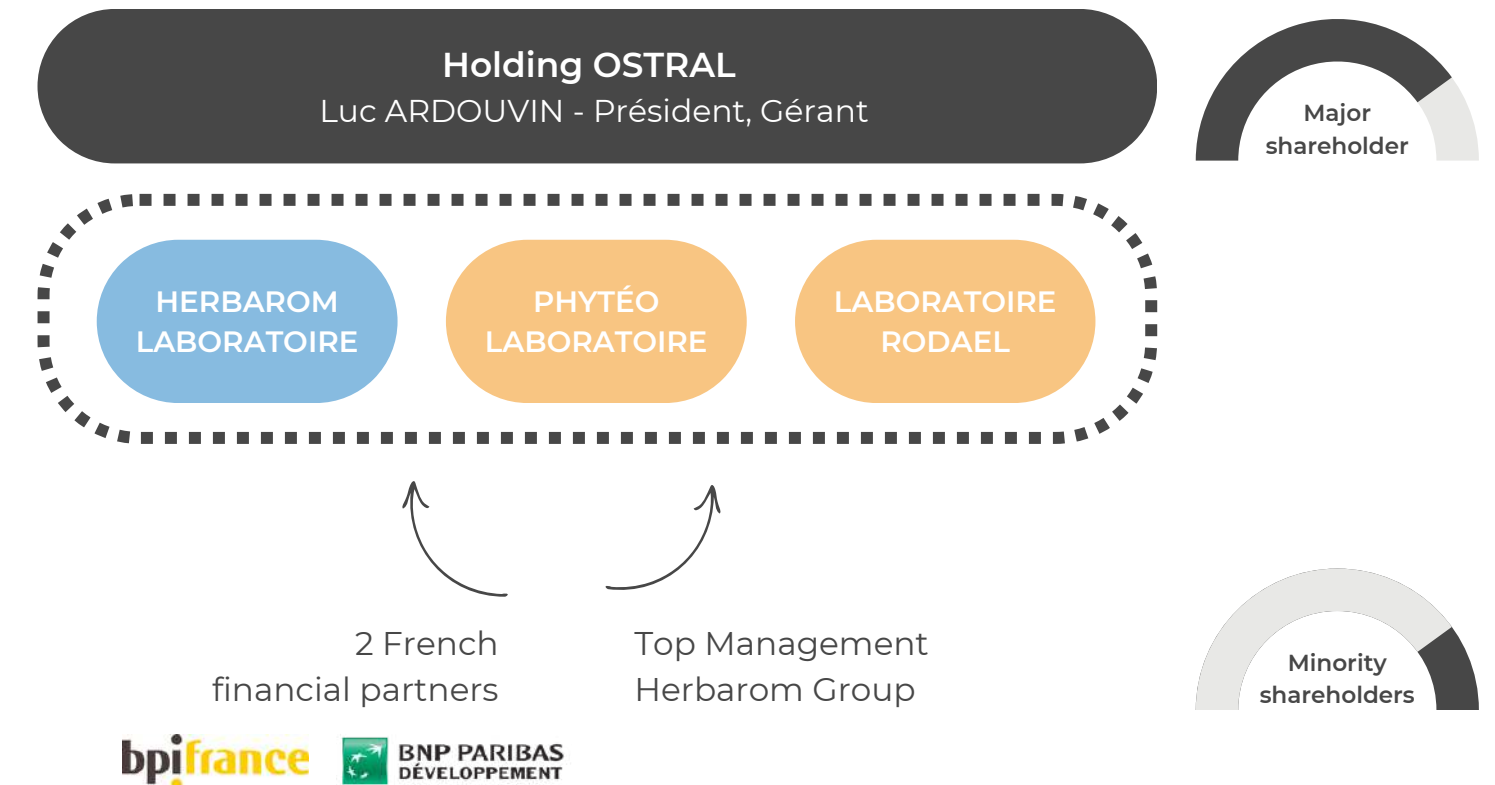

GROUPE
HERBAROM

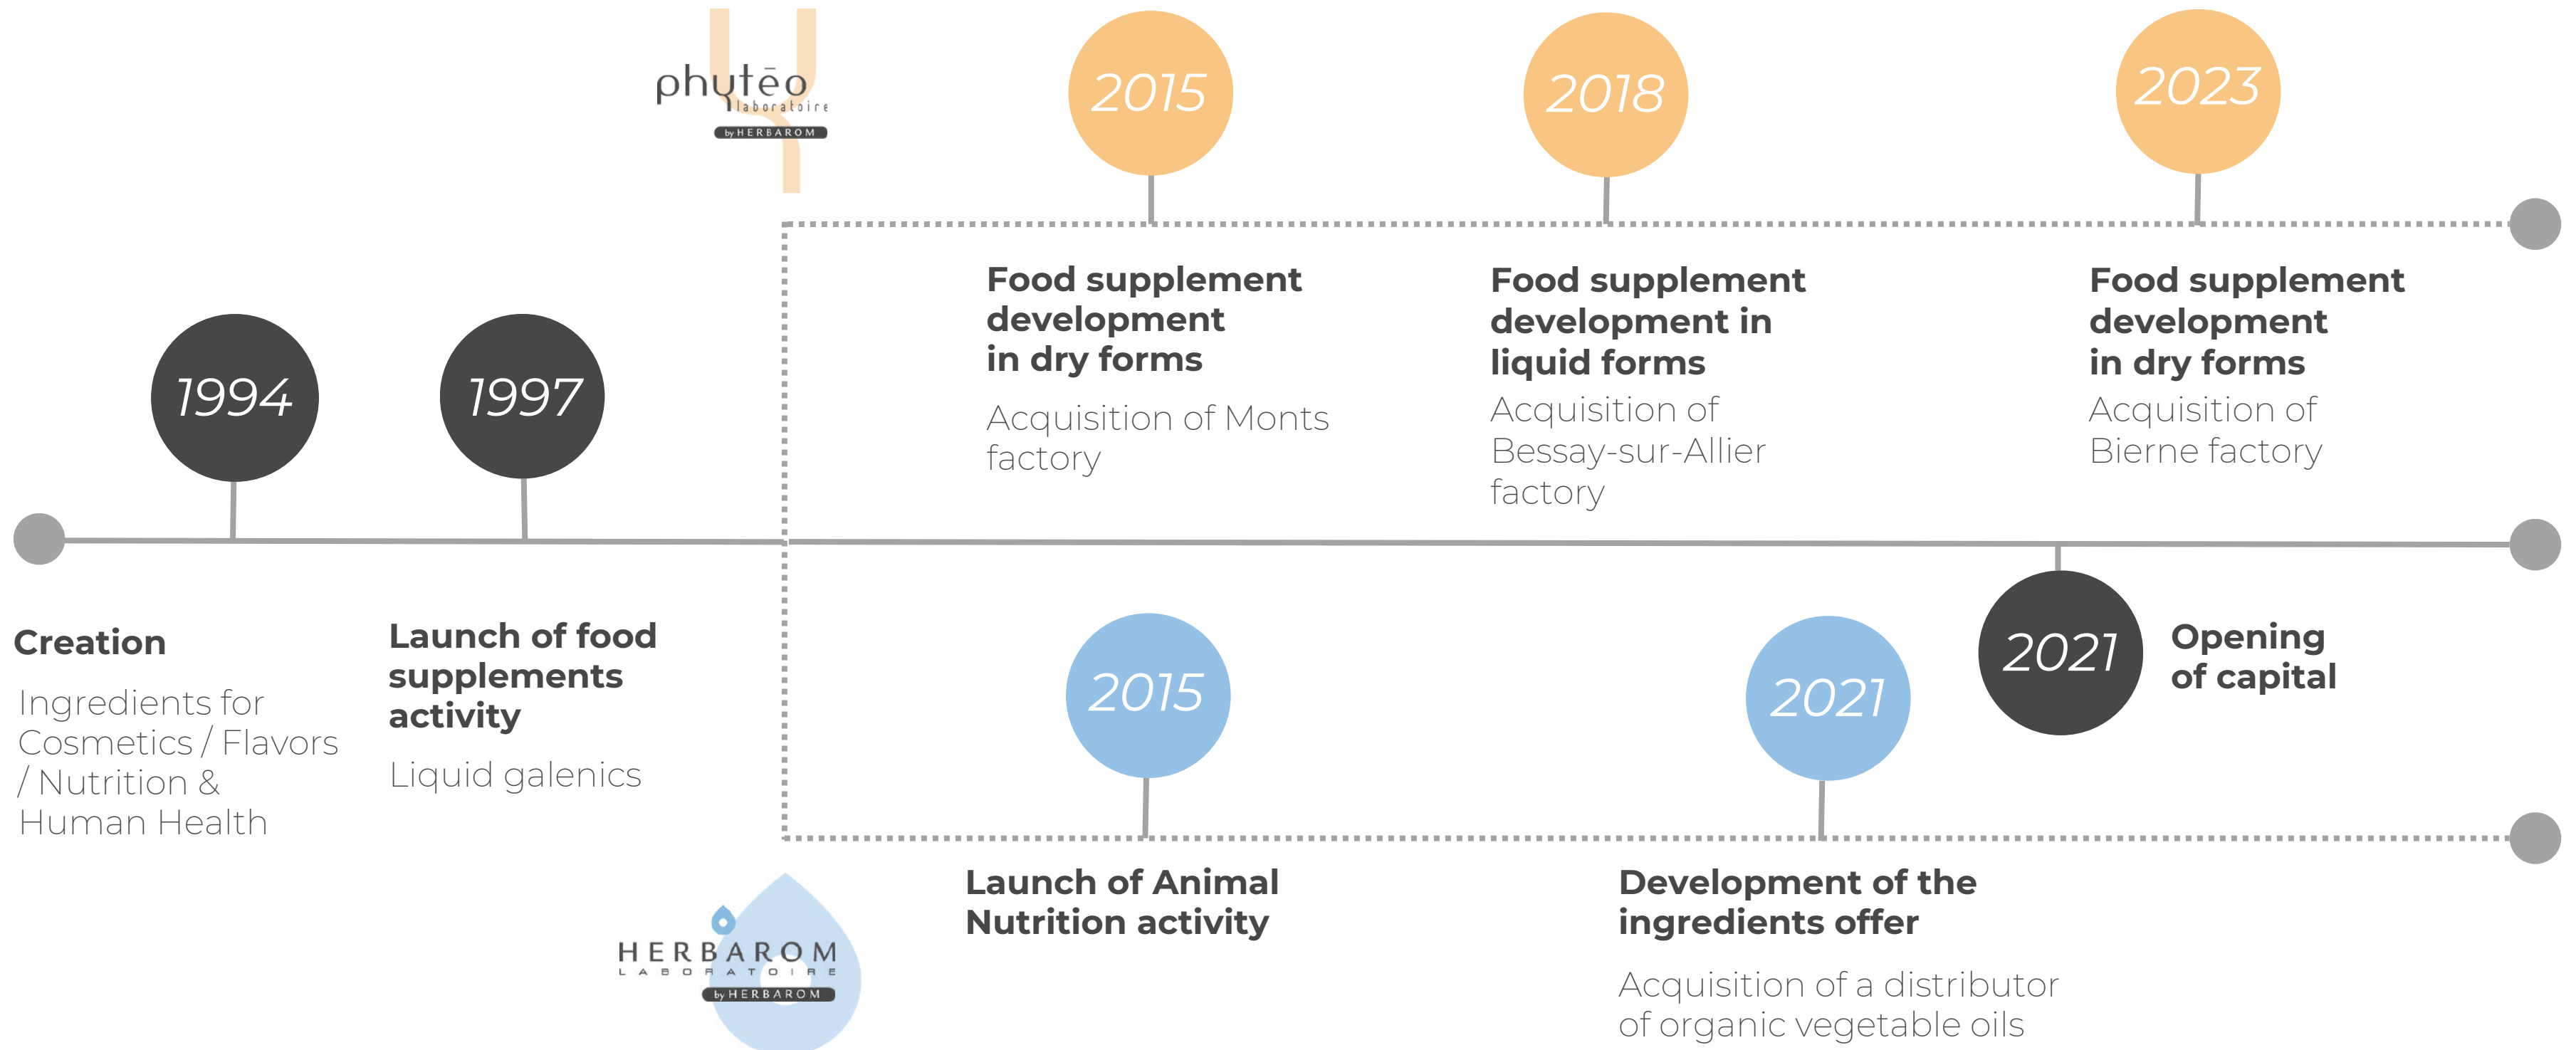

An independent group

Shareholding structure

Since 2021,
entry of minority
shareholders to
support the Group's
development

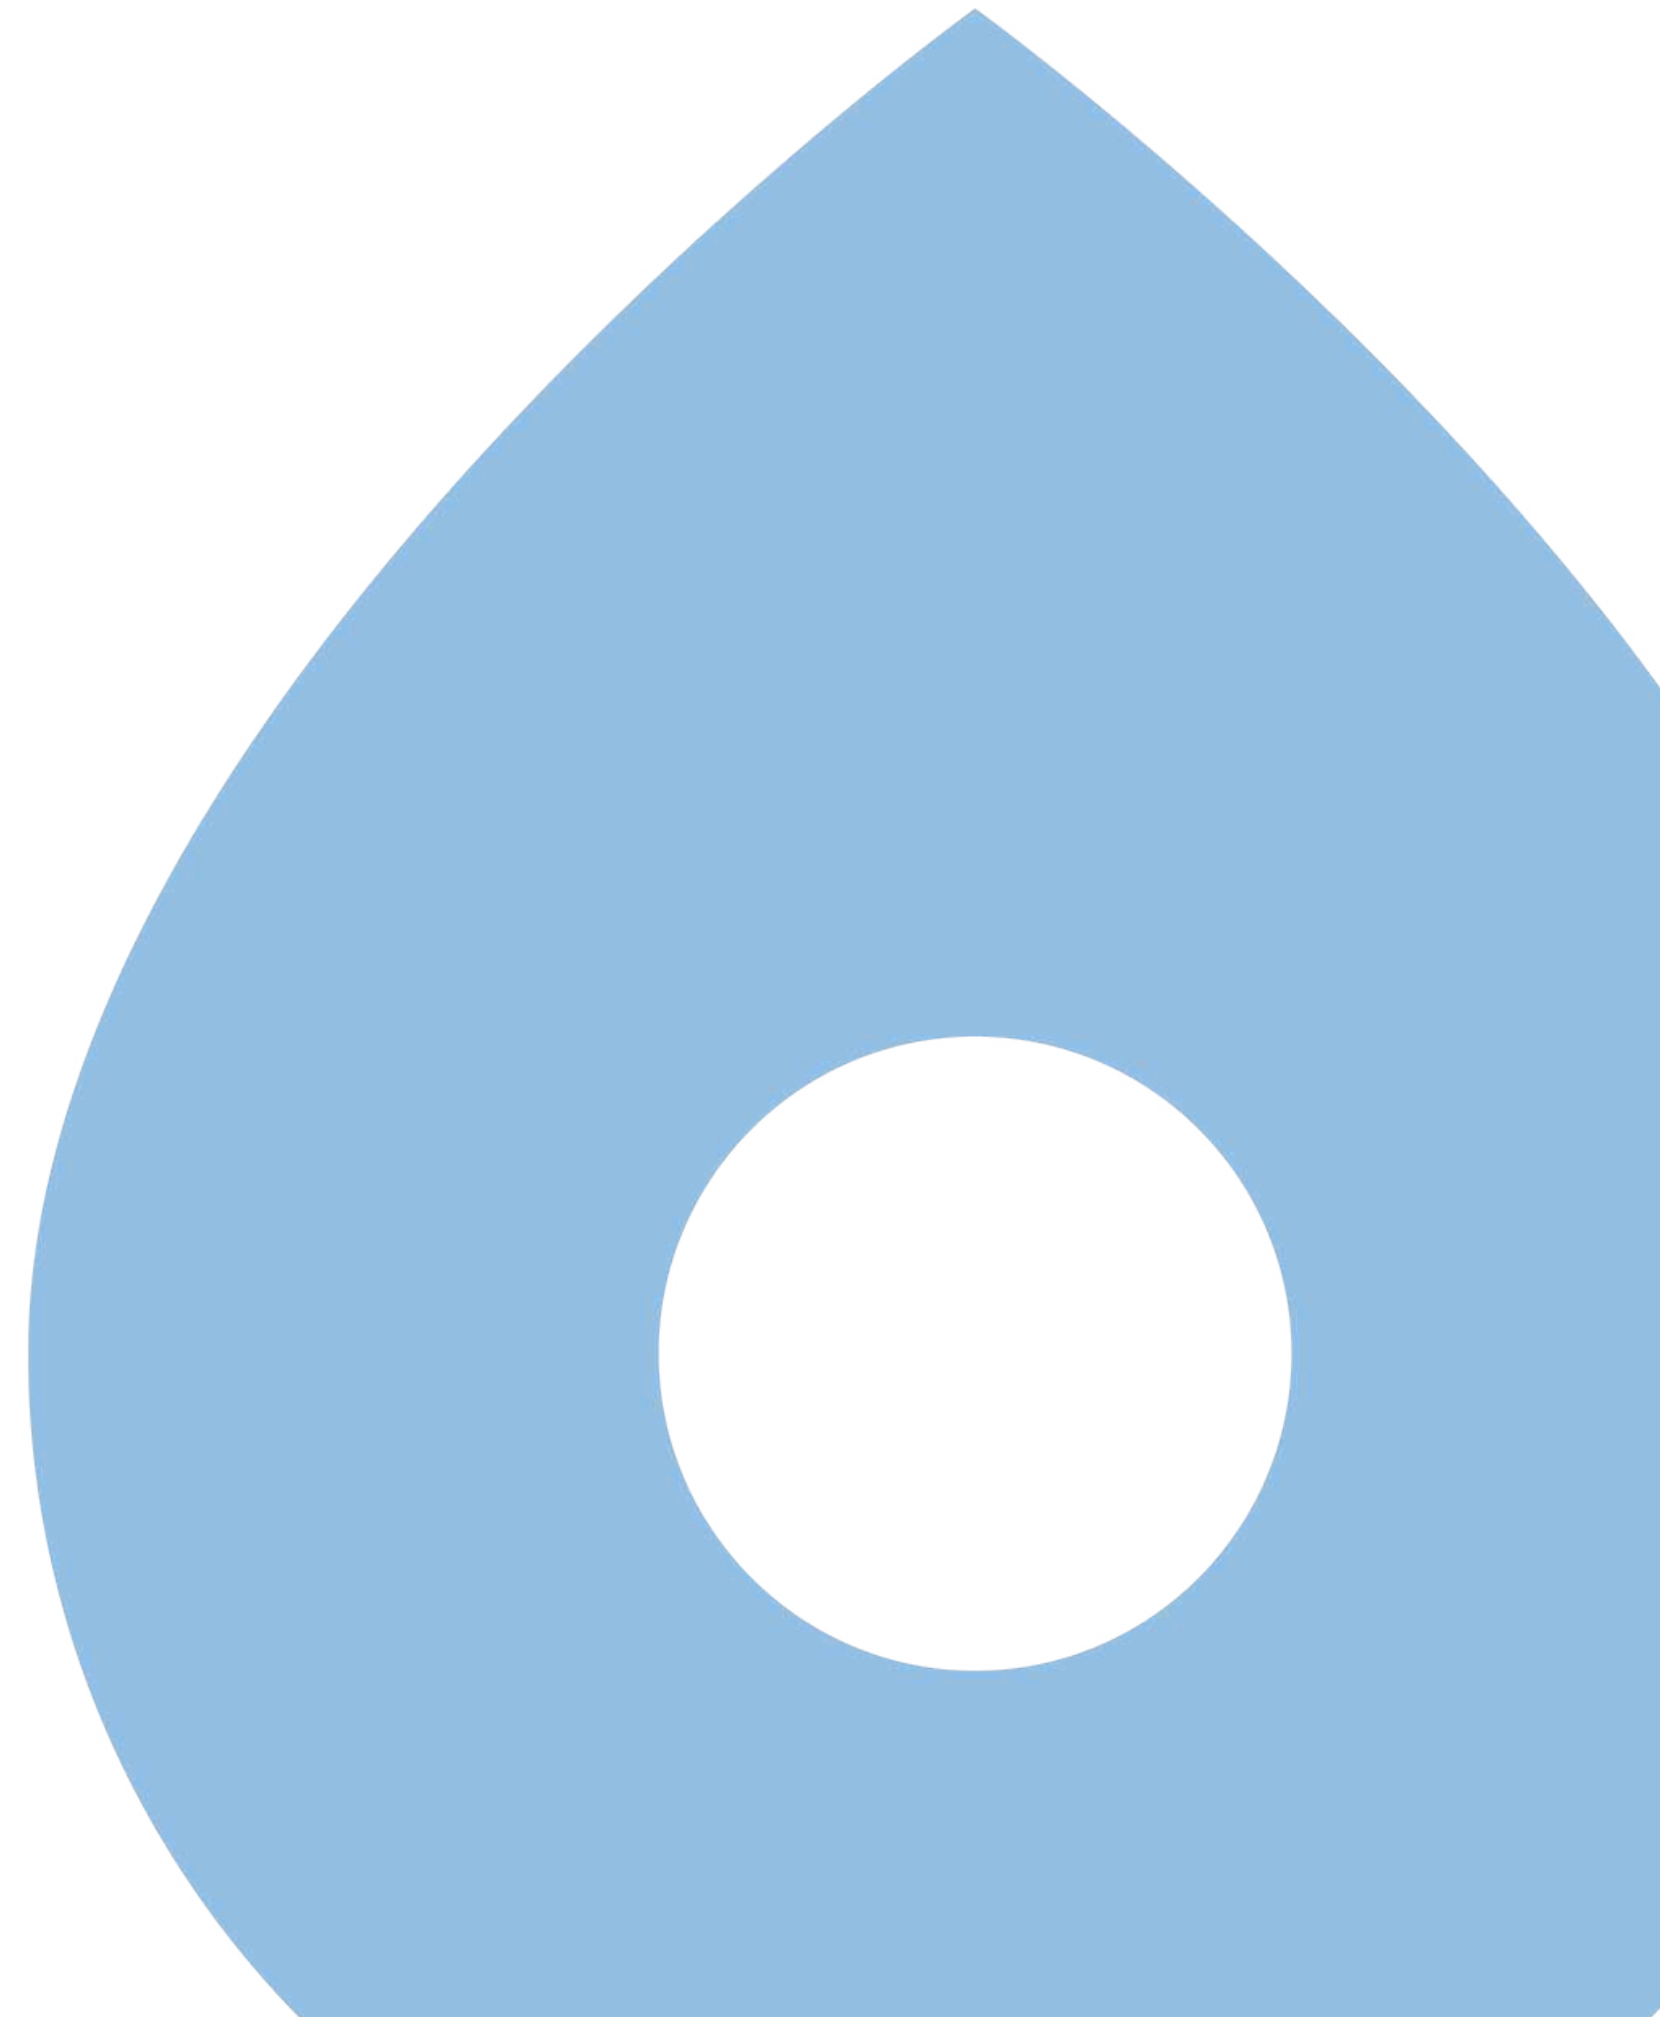

Milestones in our development

HERBAROM LABORATOIRE

COMPANY PRESENTATION

**HERBAROM
LABORATOIRE** has
become a key French
player in the following
markets

**BEAUTY &
PERSONAL CARE**

**FOOD &
BEVERAGE**

**FLAVOUR &
FRAGRANCE**

**NUTRITION &
ANIMAL HEALTH**

THE PROMISE

AT HERBAROM LABORATOIRE, WE VALUE THE BEST THAT NATURE HAS TO OFFER.

WE PROVIDE A TAILORED RESPONSE TO OUR INDUSTRIAL CLIENTS' INNOVATIONS, TRANSFORMING EACH PLANT EXTRACT INTO A SOURCE OF DIFFERENTIATION AND SUCCESS.

WE CAREFULLY SELECT OUR RAW MATERIALS FROM TRUSTED PARTNERS, ENSURING THE HIGHEST QUALITY AND FULL TRACEABILITY TO MEET OUR RIGOROUS STANDARDS.

Nature at Its Best

We value the best that nature has to offer

Innovation & Differentiation

Tailored solutions transforming plant extracts into success

Quality & Traceability

Carefully selected raw materials from trusted partners

ESSENTIAL OILS

ESSENTIAL OILS

Volatile and odorant compounds of the plant obtained from
Steam distillation or **Cold expression**.

Ingredients with **complex aromatic profiles** that allow:
to prevent **copy**
to adopt an **aromatic signature**

Herbarom distills a selection of essential oils in-house, ensuring exceptional quality and traceability. For other references, we carefully source from trusted partners who share our high standards. This approach allows us to offer a diverse range of pure and effective essential oils for the fragrance & flavour industry.

Two main commercial categories:

- Specialty essential oils (Lovage, Carrot, Parsley, Thyme, Lavandin, etc.): These are produced by Herbarom Laboratoire directly from the plant.
- Trade essential oils (Eucalyptus, Lemon, Clove, etc.): These are carefully selected and purchased as such for resale or use in production.

Two main types of plants:

- Dried plants (Lovage, Carrot, Parsley, etc.): Require a complex distillation process.
- Fresh plants (Lavender, Thyme, Melissa, Neroli, etc.): Require distillation immediately after harvest.

ESSENTIAL OILS

Standard Offer 2025 | HERBAROM LABORATOIRE

Herbarom Reference		Botanical name	Origin
PFVRHEBADI01	STAR ANISE Oil - CHN	Illicium verum Hook.f.	China

HERBAROM
LABORATOIRE

BOTANICAL & AROMATIC

EXTRACTS

AROMATIC EXTRACT

Mix of aromatic compounds of the plant
obtained from
Steam distillation or **Extraction**.

BOTANICAL EXTRACT

Mix of compounds of the
plant obtained from
Extraction.

Vegetal Extraction : process that lead to an extraction of certain constituents present in the plant. It is an operation of solid/liquid separation : a solid body (vegetal) is in contact with a fluid (solvent).

Molecules of interest are extracted by the solvent.

- **Natural** status
- **Attractive** price
- Water-soluble or Liposoluble

Ingredients with **complex aromatic profiles** that allow:
to prevent **copy**
to adopt an **aromatic signature**

CUSTOM MADE SOLUTIONS

CUSTOM MADE

SOLUTIONS

YOUR TAILOR-MADE PROJECT IN JUST A FEW STEPS ...

1 Your needs, your expectations

Co-construction of your **specifications** :

- **Project Brief**
- **Volumes**
- **Target Price**
- **Specifications**
- **Deadlines**

Specific Plant Extracts

Sourcing Raw Ingredients

2 Our proposed solutions

According to your **needs**:

- **Sourcing** of raw materials: origin, quality, etc.
- Development of your ingredient: **technical, regulatory and industrial suitability**
- **Specific additional options**: eco-design, active components of interest, specific laboratory analyses

3 Validation of your extract

Provision:

- Samples produced by our R&D laboratories
- Technical and regulatory documentation

Industrial process validation

4 Production and provision

Manufacturing and packaging according to the specifications defined together

- Over 30 years of expertise
- Sourcing and ingredient knowledge
- Technical and regulatory support

CUSTOM MADE

SOLUTIONS

CREATE YOUR OWN EXTRACT, STEP BY STEP

1 Choose your type of extract

- Essentials Oils
- Aromatic Extracts
- Hydroalcoholic Extracts
- Concentrated Extracts
- Oily Macerates
- New Sourcing
- Other?

2 Choose your type and part of the plant

3 Ratio Extraction

4 Organic Certification ?
